

Musculoskeletal Infection | Biofilm Mountain Symposium Innsbruck 2026

AUGUST 25 – 28, 2026 | INNSBRUCK – AUSTRIA

Preliminary Program

We are delighted to invite you to the [Musculoskeletal Infections | Biofilm – Mountain Symposium 2026](#) in Innsbruck.

This international meeting will bring together experts from orthopaedics, trauma surgery, microbiology, and translation research to share current knowledge and explore future directions in the field of musculoskeletal infection.

Program highlights:

- Interdisciplinary lectures from Orthopaedics, Trauma Surgery, and Research on biofilm and Musculoskeletal infections
- Exchange of expertise and networking opportunities with international colleagues
- Translational and clinical research insights shaping the future of infection management

Set in the heart of the Tyrolean Alps, the symposium will offer not only cutting-edge science but also the chance for meaningful discussions and collaborations in an inspiring mountain atmosphere.

Registration: Limited places – early booking is strongly advised.

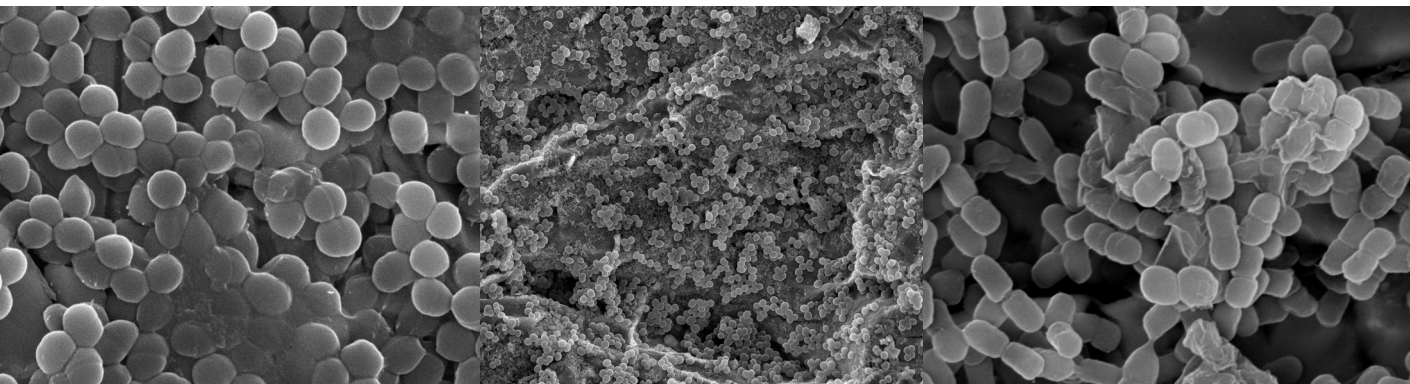

We look forward to welcoming you to Innsbruck for four days of exchange, learning, and mountain perspectives!

Main Program Themes

- Infection Challenges in Trauma Surgery
- PJI Diagnostics: From Bench to Bedside
- Modern Concepts in PJI Treatment
- Prevention Strategies & Surgical Optimization
- Osteoimmunology and Immunotherapie on PJI
